Pilates Matwork

Our classes are layered to help you find the class that is challenging, but safe for your body. With many different courses and techniques available, you can stay at one level for as long as is necessary to develop strength or you can progress to the next level. Please feel free to discuss your progress with your instructor.

Essential 1

An introductory level class for those new to the technique. This class introduces you to the foundation of the Pilates syllabus.

Essential 2

Builds on Essential 1 matwork material with a focus on completing Essential level work and establishing confidence and flow of execution. Incorporates Flexband and Fitness Circles into some exercises, preparing you for more challenging Intermediate exercises.

Essential Plus

A dynamic class of matwork exercises, structured to create flow without losing the integrity of the method. Equipment may be incorporated to stretch and strengthen muscles, open joints and relieve tension. A great workout for all levels.

Balls N Bands

Plenty of fun and variety, with a choice of the Stability Ball, small Pilates Ball and Toning Balls to add intensity and challenge to your class - add the flex band and you'll be sure to enjoy this class.

Small Equipment

Utilises the Flexband, Stability Ball and Fitness Circle. The Fitness Circle will isolate and condition the deep muscles of the body by adding resistance to your workout. The Flexband adds fun and variety while you continue to strengthen and streamline your muscles, while the Stability Ball adds a new dimension to Essential Exercises as the body works to rebalance itself. Good preparation for the more challenging Intermediate exercises.

Stability Ball

Add a new shape to your Pilates workout! Combine Pilates principles with exercises using the large (55-75cm) stability balls to get a challenging, fun filled, and innovative workout. Levels to suit all – #1=Core Balance; #2=Challenge Balance; #3=Ultimate Balance

Seniors

A Pilates class which offers all of the strengthening, stretching and posture benefits of a traditional class but at a more gradual pace allowing the trainer to provide a more personal approach.

Intermediate

Progresses Essential level exercises to their full version. Introduces and incorporates the Intermediate exercises of the Pilates syllabus. Progresses Intermediate modifications to their full version, develops flow and pace and perfects the Intermediate mat repertoire in preparation for Advanced exercises.

Advanced

A challenging workout covering the full repertoire of the technique, with a focus on teaching the advanced syllabus. The class is flowing and quicker to develop strength and co-ordination.

All mat sessions are 55 minutes long to allow time for instructors to consult individually with participants afterwards.
